DETAILED ACTION

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance.

The prior art does not teach the method for enhancing the broadcast of a target at a live event by capturing a first frame of video which is viewed as the reference image using a first camera and capturing a second frame of video which is viewed as the video of the live event using a second camera. Furthermore, the prior art does not teach that the first and second cameras can be placed adjacent to each other to broadcast a live event. Furthermore, the prior art does not teach the process of adding the line using a combination of both image pattern recognition and a refining step that does not use image pattern recognition.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
